

Don't take my word for it! Listen to what others have to say

Terri is a MASTER motivational speaker who speaks to the hearts of her audience. I first heard Terri speak on an audio program that I found on the internet. I instantly connected with both her message and her energy and wanted to hear more! I was later honored to create a joint product with Terri to gift the participants of the International Coaching Conference held in Israel, where Terri was a Key Guest Speaker. Both the audience and I were deeply inspired and touched by the high value in both content and spirit that Terri delivered at the conference so much so that Terri has been invited to deliver her message to more people and organizations in this part of the world! When Terri speaks or facilitates a program she combines heart with high-value content and timeless spiritual principles with practical know-how – a truly winning combination!

We would like to thank you for your contribution to the success of the 2nd International Coaching Conference in Israel, 2007. The success is mostly due to your knowledge, presence, and personal inspiration which served as a model for the conference participants. We are full of appreciation for your willingness to come to Israel, and for the involvement and devotion you demonstrated which ensured that the conference participants will come out empowered and optimistic in their personal and professional lives. We hope that our mutual tour in Israel enabled you to get acquainted more closely with the country, its culture and people, and we hope to see you again in future visits.

Please accept our sincerest thanks for your exceptionally helpful and timely presentation on October 5th (2005) for Montgomery County Counseling Association. Please know that these individuals who attended thoroughly enjoyed both you and the evening. They were also able to take with them some very helpful suggestions that will enrich their lives.

On behalf of Tri-State Human Resource Management Association, we want to thank you for speaking at our conference this year. It was a tremendous success due in part to your presentation. Your breakout session certainly added to our understanding of Strategies for Success, Beyond the Bottom Line. We appreciate the time, effort and energy you gave to support our event. Our membership benefits greatly from having the opportunity to expand their skills, network with colleagues and learn from leaders in the field. Again, thank you for your support.

All of Terri's seminars are interactive and fun. Because participants learn best by doing and love to learn while having fun, the learning sticks!

I have known Terri Levine for 5 years and have had her speak at numerous conferences that the company has held. Terri is an extremely powerful speaker who presents concepts that help people expand on their horizons and become proactive in thinking and her facilitating "Out of the Box" results. After each one of Terri's presentations to our Sales Organization, we found a dramatic increase in Sales activity and a large increase in our clients order placement. This is a direct result of her wonderful ability to connect with the audience and conduct an interactive approach to growing people. This approach invigorates them to realize the possibilities that exist to achieve their personal as well as professional goals with a realistic time frame. It is my pleasure to recommend, with no hesitation, a person that has helped our organization grow and flourish. Please feel free to contact me at 610-398-0501 if I can be of any further assistance.

~ Steven H. Shedroff, Sales Manager (a domestically based multi billion dollar international corporation)

Terri Levine is riveting. She inspires and educates, informs and instructs, and every minute is a delight. She's the best speaker I've heard in a long, long time.

~ Dr. Joe Vitale, President, Hypnotic Marketing, Inc

Comprehensive Coaching strategies had significant impact on re-directing the focus of our organization toward positive outcomes, rather than negative expectations. Terri's theme of looking at "what's not quite right" has launched a new and creative view of change within a positive framework.

~ George Scheer, CEO of Children's Center of Monmouth County

In addition to your main keynote and fielding some very thoughtful questions, we were also blessed with your modeling "From Selling to Serving" for LIVE Coaching. Your professionalism and integrity with your belief in the power of the model were equally as inspiring. I now know why you are referred to as the "wisdom wizard".

Thank you from the PACA Executive Board and Membership.

As CEO of multiple companies (including two named to the INC 500 list of the fastest growing companies in America), I have hired many professional speakers for our company events. In addition, I have attended many top business seminars. I must say that your presentation was powerful, persuasive and provided valuable, actionable material that the audience could put to use immediately, in both their professional and personal lives. I find your warm, energetic style captivating.

~ Scott Hallman, CEO, Business Growth Dynamics, Inc.

Terri, you were as usual...absolutely AWESOME! Thank you so much, I knew you'd deliver the most powerful workshop ever! Your volume was great, the content was highly rich and interesting, and the delivery was the best. I am beginning to think you've gotta be born a great speaker! :-)
I really appreciate you, and hope you'll accept my invitation next year!
